Office of the Director of National Intelligence OFFICE OF THE CHIEF OF PROTOCOL

Records Control Schedule

Mission Description

The Office of the Chief of Protocol reports to the Director of National Intelligence on matters related to the following activities and areas of interest:

- Events coordination and planning for Director of National Intelligence (DNI), Principal Deputy Director of National Intelligence (PDDNI), and the Director of the Intelligence Staff (DIS);
- Promotion of, and adherence to, proper diplomatic, official and social comportment for the Office of the Director of National Intelligence;
- Foreign Gifts program;
- Oversight of Official Representational Funds for DNI and PDDNI;
- Coordination with White House/National Security Council for the administration of The National Security Medal Program.

Application of the Records Control Schedule Disposition Instructions

The disposition instructions in the records control schedule are mandatory. Any Federal records received or created by Protocol Office personnel or contractors not specifically covered by this schedule or the General Records Schedules are to be retained until such time as an applicable disposition authority approved by the National Archives and Records Administration (NARA) is obtained. To take into account the fluid nature of electronic filing, those responsible for implementing this schedule should be aware that record copies of record types described in this schedule are to receive the prescribed disposition wherever they are filed.

The Information Management Officer with responsibility for the records of the Protocol Office will support effective implementation of the disposition requirements of this schedule through the development and issuance of appropriate operational guidance and supplementary instructions necessary to assure adequate and proper documentation of the official mission, responsibilities, and actions of the Protocol Office.

Note on Sensitivity of Protocol Records

Approximately twenty percent of Protocol records are classified up to the Top Secret/SCI level, requiring planning for their continued security until they are declassified or destroyed. In addition, certain series may contain material covered by Privacy Act or Freedom of Information Act restrictions other than National Security, such as law enforcement information, commercially sensitive ("trade secrets") information, or grand jury documentation. An effort has been made to note these series.

Note on Vital Records

Records management personnel should be alert to the need to identify vital records so that they can be accessed quickly when needed. Vital records are (1) those that specify how the ODNI will operate in case of an emergency or disaster, (2) those necessary to the ODNI's continued mission critical operations during and after an emergency, and (3) those that must be preserved to protect the legal and financial rights and interests of the ODNI and of persons affected by the ODNI.

Note on Electronic Records

The Protocol Office and staff maintain record copies of many official files in electronic form on both shared and individual network drives. In addition, some staff members may keep some files on their individual local drives, although this is discouraged. Records kept on both the network and local individual drives that are not disposable under the General Records Schedules (GRS) or under this schedule, as approved, are to be moved or copied to the network shared drives or kept in paper files, as appropriate, to be retained or destroyed in accordance with an approved ODNI disposition authority.
